RE: Geokatanga Installation of AKS CPL Products:

To whom it may concern,

This letter serves to confirm that the company GeoKatanga, with offices in Johannesburg, South Africa and Lubumbashi in the DRC, are well trained and experienced in terms of the installation of our AKS Products.

They have recently completed a number of large, technically challenging projects in the DRC. They are well staffed and equipped to handle all aspects of Concrete surface preparation, Grout mixing and placement, AKS layout and placement, along with the necessary welding and on-site QC program.

We would have no hesitation in recommending them for other AKS projects either locally or abroad.

Should you wish to discuss further, please feel free to contact the undersigned.

Yours sincerely

Peter
